We also added a little information about our tips on managing fonts on Mac No matter what digital product you create, fonts make all the difference in the world.

- 1. [font style download](#)
- 2. [font style list](#)
- 3. [font style type](#)

The system ships with a wide variety of fonts, belonging to different categories.. There is also a reason why you should not use Comic Sans on formal design What we are saying is this: fonts are essential.. For example, click Font next to New mail to select a default font for new messages, or next to Reply or forward to set a font for outgoing messages.. Basics on macOS Fonts Just like every other Operating System, macOS requires many fonts to function.. In Mail, for example, they're still under the "Format" menu, but then you have to go under the "Style" submenu to find those options.
